**DETAILED ACTION**

***Election/Restriction***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-22, drawn to a portable generator set with its structure mounted on a frame with wheels and with a fuel tank having an opening for an electrical block.
  - II. Claims 23-27, drawn to a portable generator similar to Group I, but with different embodiment of its functional elements and the structure of the fuel tank.
  - III. Claims 28-32, drawn to a portable generator set positioned on a stationary platform with corresponding arrangement of its functional elements.
  
2. The inventions are distinct, each from the other because of the following reasons: Inventions of Group I through III are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together, or they have different modes of operation, or they have different functions, or they have different effects. (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions cannot be used together, they have different application and utilization because of their different operational effects.

Art Unit: 2834

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

4. During a telephone conversation with Mr. Casimir F. Laska (Reg.No.30,862) on March 14, 2005 a provisional election was made without traverse to prosecute the invention of Group III, claims 28-32. Claims 1-27 are withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention.

***Examiner's Amendment***

5. An Examiner's Amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 C.F.R. §1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the Issue Fee.

6. This application is in condition for allowance except for the presence of claims 1-27 to invention(s) non-elected without traverse. Accordingly, claims 1-27 have been cancelled.

7. The application has been amended as follows:

**Cancel claims 1-27.**

***Reasons for Allowance***

8. Claims 28-32 are allowed.

**9. Examiner's Statement of Reasons for Allowance:**

Applicant(s) invention relates to a portable power generator set, and more specifically, to an arrangement of a portable generator set components.

The generator set has a stationary frame, a mounting member, an internal combustion engine, an electrical generator, a fuel tank and enclosure, which are arranged in such way to allow two passages for cooling air, as disclosed.

There are inventions in the field that provide similar functionality and/or have similar features, as prior art of record shows. Applicant(s) invention differs from the prior art of record by the configuration for the functional components, which provide in combination two air passages for cooling air, as is disclosed and claimed, and which examiner's search failed to find.

10. Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably accompany the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
